## ABIRATERONE 3BETA-CHLORO ANALOG

### Identification

|                   |                                                                                                                                           |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| Chemical Name     | : 3-((8R,9S,10R,13S,14S)-3beta-Chloro-10,13-dimethyl-2,3,4,7,8,9,10,11,12,13,14,15-dodecahydro-1H-cyclopenta[a]phenanthren-17-yl)pyridine |
| CAT No            | : ALL-A06986                                                                                                                              |
| CAS No            | : NA                                                                                                                                      |
| Molecular Formula | : C <sub>24</sub> H <sub>30</sub> ClN                                                                                                     |
| Molecular Weight  | : 367.95                                                                                                                                  |

### Analytical Information

|                       |                                   |                    |           |
|-----------------------|-----------------------------------|--------------------|-----------|
| Batch Code            | : ALL-A06986                      | HPLC Purity        | : 98.00%  |
| Solubility            | : USP Diluent / EP Diluent (MEOH) | Potency            | : 97.28%  |
| Appearance of Product | : Off White Solid                 | Mass               | : Confirm |
| Long Term Storage     | : -20° C                          | IR Analysis        | : Confirm |
| Weight Loss By TGA    | : 0.651 %                         | <sup>1</sup> H NMR | : Confirm |
| Residue Of Ignition   | : 0.183 %                         |                    |           |

### Additional Information

%Potency = [100 - (Weight Loss By TGA % + Residue Of Ignition %) × Chromatographic Purity%]/100 =  
[100 - (0.651 + 0.183) × 98.00]/100 = 97.28%

Recommendation : Released
